Mr. Mark Rusch
Tri-Lam Roofing and Waterproofing
5128 Mosson Road, Suite B
Fort Worth, Texas 76119

Dear Mr. Rusch:

It should be known to all whom may be interested in procuring the services of Tri-Lam for any roofing or waterproofing work that they will be in the best hands possible. As a Regional Manager of one of the largest roofing manufacturing companies in the world, my duties require constant quality control inspections of all Garland applications. Having been with Garland for over twenty years in this region, it is without any reservation that Tri-Lam Roofing is considered one of the very elite approved contractors. Tri-Lam's attention to installation detail and the customer comes first attitude has allowed Tri-Lam to maintain "most favored" contractor status since achieving approved contractor status.

It should also be known that Tri-Lam Roofing and Waterproofing is one of the largest volume installers of R-Mer Lite Insulated Steel Roofing assemblies in the country and is the first to receive a zero punch list.

It is with pleasure and pride that the Garland Gulf Coast Region can recommend Tri-Lam for excellence.

Respectfully,

Sam Heffernan
